

Lesson 3 My First Bitcoin History of Money

These are the cards the BTC Curaçao Institute, used for playing the game of History of Money.

This is part of the My First Bitcoin Curriculum and there is an exercise where the teacher can introduce the history of Money to the students.

You can play this game with your family of 9 persons. You need about 2 hours to play this game.

Make it fun and let somebody cut the cards while you are explaining each round of the game.

What you need:

- Paper
- Colour printer
- Scissors
- 9 players.
- 2 hours
- A box (for becoming the bank)

See the video here where I explain the concept and each round (17 minutes)

See the My First Bitcoin Certificate, Lesson 3 History of Money, for the background of the chapter.

You will go from Barter, to spaghetti, to golden and silver coins, to a bank backed by gold and silver, to the bank giving loans, to plastic money (creditcards) to decentralized money (Bitcoin nodes running on a raspberry pi).

Here is the intro video to the game.

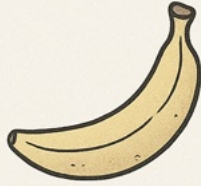

Print the following papers in colour. Use a hard paper so the cards can be used.
